**GYC COVID-19 Update**

All,

It is amazing what can happen in a couple of days. Three days, 3 executive orders by Governor Cuomo.

Since issuing a statement to the membership 4 days ago, I feel that we need another statement today to take it to the next level.

Social distancing is a responsibility that, as a social club, we should be very clear about - the club is closed to face-to-face social activity - period. You may stop down to the club to check on your boat, and even work on your boat. But please keep your distance from each other and refrain from using the club house. Also know that the club house is not actively being cleaned or sterilized, and as such you should consider it to be contaminated. The house is off-limits to everyone until further notice, except for the Executive Board, who will ensure that all systems are functioning. If you suspect there is an issue please contact any of the Executive Board members.

As things are likely to change, watch for additional information.

Stay healthy, stay safe -

Rich Allen

**COVID-19 Impact on GYC**

Due to the escalating situation with COVID-19 the GYC Executive Board has made the following mandate. To comply with NY state and CDC guidelines the club property is not to be used for organized meetings, parties or assemblies. This is effective immediately until further notice.

Working on your boat is ok.

Small outdoor projects are ok.

Please use best practices; if you are sick stay home, wash hands frequently for at least 20 seconds, do not touch your face, and maintain 6 feet separation from others. We will continue to communicate with emails, Facebook posts and information on the website. Thank you for your patience during these difficult times.

On behalf of the Executive Board,

Rich Allen
