

November 10, 2020 - Code Yellow Impact on GYC

By now you have all seen the news that COVID cases have ramped up significantly over the past two weeks leading to declaring the City of Rochester and surrounding towns as being in a CODE YELLOW status. Over this short two-week interval, the county has gone from being a bright spot of low caseload, to one of significant concern. COVID related hospitalizations have doubled and positivity rate is rising. We will continue to monitor the situation but feel that is important to act swiftly to protect our membership.

Effective today, we will retreat from the limited clubhouse opening status which was initiated a short time ago. The main meeting room is closed and there are to be no indoor gatherings. The restrooms and foyer will remain open while you continue to winterize your boats and perhaps enjoy socialization outdoors. We will continue to clean the clubhouse according to the current cleaning guidelines for the time being.

The Executive Board has a regular monthly meeting this Thursday, and we will consider the outlook for house use through the winter months dependent on conditions in Monroe County.

In the meantime, be safe and consider socializing with appropriate distancing protocols or use of online meeting tools. Pandemic fatigue is a real thing, so lets do our best to keep up relationships using the best tools and processes available.

Best Regards,
Rich Allen, Gerard Fisher, Pat Pytlak
